Manual Pinela

Maximum enjoyment of your outdoor living with the Manual Pinela

The Manual Pinela offers easy installation, slim profiles and a solid structure, allowing you to enjoy a comfortable outdoor area without any worries. Open the panels manually for the ideal combination of sun and air circulation. When the panels are closed, you are protected from UV rays, rain and other types of weather. In addition, you can retain warmth inside. With the Manual Pinela, you can enjoy outdoor life throughout every season.

With the Manual Pinela you can extend your outdoor possibilities. By adding Fiano glass sliding doors or aluminium Grillo walls, to close off one or more sides from the rain and wind, you can enjoy your outdoor space all year round.
